PROFESSIONAL SUMMARY

Diesel Mechanic Transitioning to Cloud Engineering | AWS Certified Cloud Practitioner

Systems troubleshooter with 8 years of hands-on diagnostic and technical experience, now applying that same problem-solving discipline to cloud infrastructure. AWS Certified Cloud Practitioner, currently pursuing Solutions Architect Associate. Background spans electrical/mechanical diagnostics, fleet systems, and process documentation — skills that translate directly to root-cause troubleshooting, technical support, and infrastructure operations. Comfortable learning fast, working independently, and owning problems end-to-end.

Authorized to work in the US for any employer

WORK EXPERIENCE

Diesel Fleet & Equipment Mechanic

Peninsula Topsoil | Belfair, WA | April 2023 – April 2026

- Diagnosed and resolved complex electrical, hydraulic, and mechanical faults across a mixed fleet, often working from schematics with no direct supervision
- Maintained inventory and service records for parts and equipment, ensuring accurate tracking across multiple active jobs
- Prioritized and triaged competing repair requests to keep fleet uptime high under tight operational deadlines

Diesel & RV Mechanic

Peninsula Fleet and RV Services | Bremerton, WA | August 2022 – April 2023

- Performed full-system diagnostics (electrical, AC, brake, drivetrain) on diverse vehicle platforms, identifying root cause rather than just symptoms
- Delivered direct customer communication on technical findings and repair options, translating technical issues into plain language
- Certified in Bendix/Meritor air disc brake systems and MACS AC repair — specialized technical certifications requiring ongoing training

Military Diesel Mechanic (HMMWV & Stryker)

Skookum | Joint Base Lewis McChord, WA | January 2020 – December 2022

- Maintained and repaired military-grade vehicle systems under strict standards and documentation requirements
- Worked within structured maintenance protocols and inspection schedules, similar to change-management processes in IT environments
- Diagnosed electrical and mechanical faults on complex, mission-critical systems where downtime was not an option

Mobile Diesel Mechanic

JLE Truckwash | Puyallup, WA | January 2022 – September 2022

- Delivered rapid-response technical troubleshooting and remote diagnostics for a regional

- fleet, prioritizing issues by operational impact
- Managed 24/7 on-call technical support rotation, balancing emergency response with scheduled preventative service
- Coordinated with dispatch/logistics teams to triage and prioritize technical issues in real time — direct analog to IT ticket triage

Automotive Technician

Great Car Wash Care Center | Gig Harbor, WA | June 2019 – July 2021

- Performed standard vehicle maintenance and emissions testing across a high volume of daily appointments
- Provided technical consultations directly to customers, explaining diagnostic findings and repair options in plain language

EDUCATION

Google AI Fundamentals — Certificate

Google | Remote | August 2026

CS50x: Introduction to Computer Science

Harvard University (via edX) | Remote | May 2026 – July 2026

- Learned multiple programming languages including C, Python, and JavaScript, plus SQL, CSS, and HTML
- Completed hands-on projects including a web application inventory tracker and several searching/sorting algorithms

PROJECTS

DOT Inspection Compliance Tracker — Flask / SQLite, AWS-targeted architecture

- Built a compliance tracking application to manage DOT inspection records and deadlines, with inspection forms, work orders, inventory tracking, and built-in auditing
- Designed with AWS deployment in mind, applying cloud architecture concepts from certification study directly to a working project

Doro Inventory Tracker — CS50x final project

- Built a standalone inventory management tool applying core CS50 concepts, including data structures, database design, and web fundamentals

Ad Creation Web App — Personal project

- Built and designed a web application that lets businesses create poster-styled advertisements in minutes, without relying on AI image rendering

SKILLS

Cloud & Technical: AWS Cloud Practitioner (Certified), Python, SQL, Database Software Proficiency, Microsoft Excel, Microsoft Outlook, Google Calendar, Computer Literacy, CAD

Diagnostics & Troubleshooting: Electrical Systems & Circuit Diagnostics, Electrical Troubleshooting, Mechanical Troubleshooting, Automotive Diagnostics, Schematics, Math

Mechanical & Field: Maintenance, Inventory Management, Electrical Repair, Automotive Wheel

& Hub Repair, Certified Bendix & Meritor Air Disc Brake Service, MACS AC Repair & Recharging, Transmissions, Welding & Fabrication, Metal Fabrication, Forklift Certified, Diesel Engine Repair, Field Service, Automotive Steering System Repair, Automotive Repair, Trailer Towing, Outdoor Work Experience, Customer Service

LANGUAGES

English — Expert | Spanish — Intermediate

CERTIFICATIONS & LICENSES

- AWS Certified Cloud Practitioner – Foundational (May 2026 – Present)
- Air Conditioning Certification
- Air Brake Endorsement
